Kainat Moin

AI & Machine Learning Engineer

Portfolio: https://kainat-portfolio-beta.vercel.app/

Email: kainatmoin4@gmail.com

LinkedIn: https://www.linkedin.com/in/kainat-moin-7103b82a3/

Address: Karachi, Pakistan

SUMMARY

AI & Machine Learning Engineer with hands-on experience in Python, Machine Learning, Deep Learning, Computer Vision, and AI application development. Skilled in building and evaluating intelligent systems, developing data-driven solutions, and applying AI techniques to real-world problems. Passionate about creating practical AI solutions and continuously advancing technical expertise.

EDUCATION

BS Artificial Intelligence

Dawood University of Engineering & Technology (DUET), ***Karachi | 2023 – Present***

Semester* : *7 th

Current CGPA: 3.49

Intermediate (Pre-Engineering)

BAMM PECHS Government Girls College, ***Karachi | 2023 | Grade: A***

SKILL

- ***Programming Languages:*** Python, C++, C, SQL
- ***AI / Machine Learning:*** Machine Learning, Deep Learning, Computer Vision, CNN, Transfer Learning, Data Preprocessing, Feature Engineering, Model Evaluation
- ***Frameworks & Libraries:*** TensorFlow, Keras, Scikit-learn, OpenCV, MediaPipe, NumPy, Pandas, Matplotlib, Streamlit
- ***Web Technologies:*** HTML, CSS, WordPress
- ***Databases:*** MySQL, Oracle, Oracle APEX
- ***Tools & Platforms:*** Git, GitHub, Google Colab, Jupyter Notebook, VS Code, Semrush, Google Analytics, Search Console
- ***Core Strengths:*** Problem Solving, Analytical Thinking, Research, Team Collaboration, Communication, Project Management

EXPERIENCE

Research Internship– Democracy Discourse Index (DDI) Pakistan

Global Centre for Rehumanising Democracy (GCRD) | Sep 2026 – Present

- Researching public discourse in Pakistan using structured coding methods.
- Analyzing comments for empathy, civility, trust, and democratic agency.
- Contributing to research analysis and policy brief writing.

Build with AI – Women Tech Quest 2026 -10 pearls

10Pearls | 2026

- Developed an AI-powered tool to extract data from electricity bills.
- Integrated Google Gemini for bill-based Q&A, data validation, and privacy protection.

SEO & Content Writer

Ads-Expert | Feb 2025 – May 2025

- Created data-driven SEO content to improve search rankings and engagement.

Sales Executive

Groath Digital | April 2025 – June 2025

- Engaged clients via chat platforms to generate and convert leads.

CERTIFICATION

- *Women Tech Quest 2026 – Utility Bill Decoder – 10Pearls | 2026*
- *AI Civic Guardian – Alibaba Cloud AI Hackathon Pakistan | 2026*
- *AI Got Talent – Certificate of Participation – FAST NUCES Karachi | 2026*
- *Proxion 2026 – Certificate of Participation – NED University | 2026*
- *Google AI Professional Certificate – Google & Coursera | 2026*
- *Google AI Essentials Specialization – Google & Coursera | 2026*
- *Generative AI Application Developer (Top Performer) – NCEAC-HEC & ULEF, USA | 2026*
- *Certificate of Participation in AI (ACIP)*
- *Human Flag Formation – Certificate of Participation-DUET*
- *Web Development Professional Training Program-JDC*
- *Carbon Footprint Reduction Training Program-ladies-fund-energy*

PROJECT & COMPITION

Utility Bill Decoder — Women Tech Quest 2026 (10Pearls)

- Built an AI-powered tool to extract billing data from K-Electric, LESCO, and IESCO bills.
- Integrated Google Gemini for bill-based Q&A, data validation, and privacy-focused PII redaction.
- Tech: Python · Streamlit · Google Gemini · Multimodal AI

Live Demo: https://women-teach-quest-10pearls-utility-bill-decoder-aah5dxy6cmwbcw.streamlit.app/

AI Civic Guardian — Alibaba Cloud AI Hackathon Pakistan 2026

- Developed an AI-powered civic issue reporting platform using fine-tuned YOLO for detecting 7 infrastructure issues.
- Integrated AI image detection, GPS location capture, and structured report submission.
- Built with Python, Streamlit, PyTorch, YOLO, OpenCV, and SQLite.
- Collaborated in a team to develop the solution for the hackathon.

PostPal — AI-Powered Fitness & Rehabilitation Assistant | Final Year Project (Ongoing)

Python | MediaPipe | OpenCV | TensorFlow Lite | LSTM | Computer Vision

- Developing an offline AI-powered fitness and rehabilitation application for exercise monitoring and guided movement.
- Using a device camera for real-time human pose estimation and exercise analysis.
- Providing voice-based guidance and real-time feedback to identify and correct exercise movements.
- Applying AI-based movement analysis for fitness and rehabilitation exercises while maintaining offline functionality.

Status: Ongoing — Final Year Project

NeuroFlow AI — NED Proxion 2026

- Developed an AI-powered career assistant for the NED Proxion 2026 competition.
- Built features for resume analysis, LinkedIn integration, interview preparation, and intelligent career guidance.
- Developed the application using React and JavaScript with AI/ML-oriented functionality.
- Collaborated on an AI-focused solution designed to support career development and job preparation.

Emotion Classifier – AI Got Talent (DevDay '26, FAST NUCES Karachi) | Python, Scikit-Learn, Streamlit

- Built a multi-label emotion classifier to detect 9 emotions from tweets in a 2-hour hackathon.
- Applied TF-IDF feature extraction and an ensemble of machine learning models.
- Achieved F1 Score: 89.3%, Precision: 88.6%, and Recall: 90.1%.
- Deployed the model as a live web application.
